- Back Office & LOB Application Integration
- Upgrade & Migration
- Document Management
- Planning & Design
- SharePoint Best Practices
- SharePoint Training
- SharePoint Branding & Web Design
- Network Security (SSL & VPN)

SharePoint Consulting Services

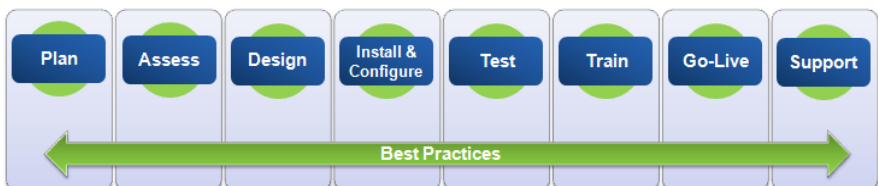

Accelerating Deployments & Maximizing Your Investment

The adoption of Microsoft Office SharePoint Server 2007 and SharePoint Services has been growing leaps and bounds within the enterprise. In early 2008 Bill Gates announced that SharePoint adoption had surpassed 100 million licenses with over \$1 billion in annual sales, making it the fastest growing server product ever introduced by Microsoft. With increased pressures mounting for organizations to streamline business processes, increase efficiency and improve information governance, SharePoint has enabled organizations across a variety of industries to solve some of their most pressing information management needs while providing a cost effective and future proof alternative to traditional content management systems.

To help organizations accelerate deployments, and maximize the value of SharePoint investments, Prodiance offers a wide variety of add-on products, customizations and professional services. Our team of experienced and trained professionals leverages a wealth of knowledge and expertise gained in both large and small deployments as well as global rollouts across a variety of industries.

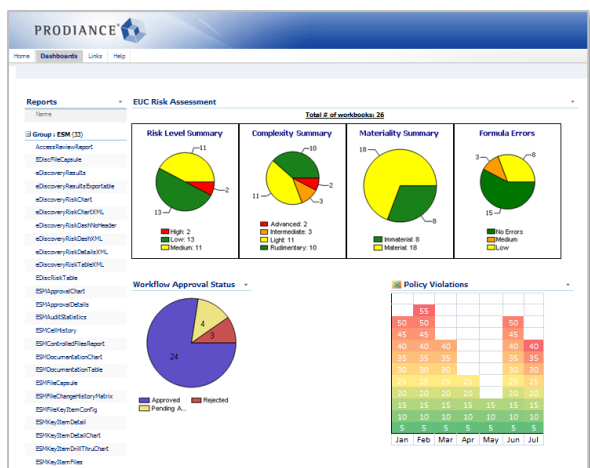

Best Practices Methodology

To ensure success with every SharePoint deployment or customization project, Prodiance follows a Best Practices Methodology incorporating a phased approach from pre-installation and planning, to assessment, system design, installation, configuration, testing, training, go-live and technical support.

Workflow Design & Implementation

Leveraging Windows Workflow Foundation, Prodiance can design and implement a wide variety of business process workflows including document authoring, review/approval/sign-off, document publishing, exceptions management, document certification, or attestation for compliance applications. Workflows can be simple or complex with robust parallel and serial flows to enable full control of the document lifecycle, complete with versioning and audit trails for satisfying regulatory compliance mandates.

Business Intelligence & Reporting

SharePoint, Excel Services and SQL Server Reporting Services deliver a robust framework for business intelligence and management reporting. Prodiance provides a wide variety of solutions in this area, including:

- Custom document library list views
- Excel Services reports and graphs
- Graphical dashboards with drill down into detailed reports
- Complete Reporting libraries
- Automated and ad-hoc reporting
- Integrated ERP & CRM reporting

Add-on Products & Customizations

Prodiance offers a variety of value-added products and customizations for SharePoint, including:

- **Prodiance Electronic Signature for SharePoint** – provides electronic signature capability for files stored in SharePoint to facilitate compliance with regulatory mandates including FDA 21 CFR Part 11 and the US eSignature Act.
- **Prodiance Link Migration Manager** - a robust and easy-to-use software application for automating the migration of linked spreadsheets into SharePoint while preserving the links.
- **Prodiance Documentation Manager** – extends SharePoint document libraries with document-to-document linking and allows for users to seamlessly attach and manage additional documentation to a file stored in the SharePoint framework.

Proven ROI

By leveraging SharePoint Consulting Services from Prodiance, organizations accelerate SharePoint deployments, speed adoption, maximize investments in Microsoft SharePoint technology, increase enterprise wide collaboration and improve mission critical business processes.
